Local Happenings

Athol Cooper of Magrath was here on Saturday.

Don't forget the Dominion Day celebration here. Boost for it.

Mr. and Mrs. Rnyo Woolf were Cardston visitors over the week end.

W. D. Mendenhall spent last week with his crew erecting his bill boards in Cardston and Magrath.

Mrs. J. W. Low of Cardston spent the week-end with Mr. and Mrs. Ken. Allred.

Mr. and Mrs. Lee Brewerton were visitors at Cardston and Waterton Park over the week-end.

C. H. Elder has sold five plows in the past week. That ought to turn something over.

Foundation work is going on now with the new garage just south of the Rex Barber Shop.

Excavation is nearly completed on the residence of Dr. Leech. Water connections were being made the first part of the week.

Mr. and Mrs. R. W. Low of New Dayton and Mr. and Mrs. Solon Low of Raymond were Cardston visitors on Sunday.

Born to Mr. and Mrs. A. S. Bullock on Tues. June 18, a baby boy at the home of Mrs. Boyson. Dr. Leech attending.

R. W. Tollestrup was successful in his Engineering Examinations and is now the proud owner of a First Class Certificate.

Congratulations, Mr. Tollestrup.

Mr. Car Owner. You can't afford to overlook the Valve Service that King Motors is able to give you with their new Valve grinding Equipment. Take a tip and go in and see it.

Mr. and Mrs. Cluster Nilsson of Ephraim, Utah, report the arrival of a baby boy on June 8th. Cluster is the son of Mr. and Mrs. C. Nilsson of Raymond.

Dr. and Mrs. D. B. Fowler of Magrath were in attendance at the Big 2nd Ward Open Air Dance Wednesday night.

Messrs. L. D. King, H. Fairbanks, W. Meldrum, D. A. Bennett and Byron Wall Were in Lethbridge on Monday, Tuesday and Wednesday serving on the jury.

The Half Mile Relay cup and the Track Meet Medals are on display at the Raymond Merc. and are very pretty indeed especially the lovely cup for the Half Mile Relay event.

Ray Keech famous automobile speed racer and winner of this years Indianapolis classic, was instantly killed in a four-cornered smash up at Altoona, Pa., Saturday, when seven cars piled up.

Hundreds of people perished, 15,000 were driven to refuge and ninety per cent. of the cattle in the district were destroyed by an equatorial rain which washed away half the houses in Silchar Assam and Cameroons in Africa.

Mrs. N. L. Mitchell is selling off the household furniture and effects preparatory to joining her husband in Salt Lake City, where he has been engaged as Supervisor of Music in the Cypress High School and also has charge of a fifty-two piece band. Raymond will feel keenly the loss of this family, but wishes them well.

Fifteen deaths are reported, following the earthquake which rocked northern New Zealand on Sunday and one town was in grave danger of flood water on Tuesday. The quake was recorded almost the world over.

Northern Saskatchewan was visited by a wind storm of cyclonic proportions on Tuesday, the wind being so strong in places that horses and cattle were picked up, trees broken and small buildings blown down and overturned, one granary being lifted high in the air and sailing over the tree tops.

Cardston Wins 8-9

Cheesman's Colts invaded the local baseball diamond on Wednesday and romped home with the bacon with a final score of 8-9.

The game was played on the new diamond at the Fair Grounds with a high west wind blowing, filling the eyes and mouths of players and spectators with dust, and causing people to take shelter, and search for wraps, more like the middle of September than of June. A fairly good crowd was present but enthusiasm was lacking because of the cold and everyone stayed in their cars.

Cardston got away to a flying start by getting two men around in the 1st Raymond duplicated this and tying up the score in their half of the first.

Cardston got three more in the second, one in the fourth, and 3 in the sixth. Raymond scored 2 in the third, 2 in the sixth, 1 in the seventh and one in the ninth and had a man on when the curtain was rung down. It was anybody's game all through and when the locals scored one in the ninth with only one needed to tie the score the rosters became real enthusiastic and did a lot of talking to the Cardston team.

Errors were frequent on both sides but nothing else could be expected when the cold wind had the players bent over from exposure.

Allred for Raymond and Cahoon for Cardston were the opposing mounds-men, Allred getting 12 strikeouts and Cahoon 10. Humphreys for Raymond and McKenzie for Cardston were on the receiving end.

The line up was as follows:—Cardston—Brooks, ss; Cahoon, p; McKenzie, c; Richardson, cf; Parker, 2b; G. Hansen, 1b; L. Hansen, 3b; M. Hansen, cf; Laidlaw, rf.

Raymond—Humphreys, c; Nalder, 1st; Kirkham, rf; Allred, p; Tollestrup lf; Brewerton, ss; F. Leavitt, cf; Henry 3b; Workman 2b; O'Brien 1b and cf; Van Orman, ss; Fairbanks, 1b; Hawkins, cf. F. Leavitt and G. Tollestrup both hurt their ankles sliding into home and were forced out of the game. Brewerton also had to leave because of the lateness of the hour.

E. R. Robinson and Solon Low were umpires of the game.

Plans for Celebration Promise Great Day

Committees representing the Local Scout Association, the Amateur Athletic Association and the Stake M. I. A. are rapidly rounding into form their plans for one of the biggest and best celebrations ever staged in Raymond. J. W. Evans is Chairman, T. Geo. Wood Vice-chairman and Mrs. M. Boyson, Secretary of the general committee.

The committee chosen on Salutes Bugle calls and Flag raising, is in charge of W. Barrett, Bert Coombs, Jack Mehew, and T. O. King is the Grand Marshal of the A.D.Y.

The Parade committee, consisting of J. H. Blackmore, T. Geo. Wood, J. E. Earl, Solon Low, Welburn VanOrman, K. R. Allred, Mrs. J. W. Evans Mrs. McBride and Mrs. J. U. Allred, have their plans complete for a parade headed by the band with 10 children from each school grade representing the nations of the Empire.

Decorated Bicycles, Tricycles, cars tractors, the Fire Department, and boys and girls on horseback representing Miss Canada and her provinces and territories are the chief items. The march will start from the Public School going east and north to J. W. Evans home, then counter march south to Mayer Cope's residence and back to the Opera House.

Then the program committee Louis Brandley, Lura Redd, Ervin Fawns, Mr. and Mrs. Chas. Asplund and Mrs. O. H. Snow assisted by Ed. Hawk in charge of decorations and Sam Dyson electrician will stage the following program—

A pageant in three episodes depicting the birth of the Dominion in 1867 and birth of Raymond in 1902. In the latter event Ray Knight and two of the original Councilmen who had a great deal to do with the founding of Raymond will take prominent part. Following this, Raymond of 1929 will be portrayed by young people, four of whom will represent her leading industries, and children in costume will represent the different nationalities making up our community. Appropriate music will accompany the pageant and as a prelude, Kipling's "Recessional, Soldiers' Chorus and a reading will be given.

Details of Afternoon Sports will be given in next week's paper.

Town Hall By-Law Carries

With only 88 voters casting a ballot the by-law for the floating of debentures for \$10,000 for the erection of a new Town Hall and Fire Hall carried the day, 65 votes in favor to 23 against the proposition.

Just why the vote was so small we cannot say. It is a busy time, to be sure, but 88 out of a list of 350 or more voters doesn't sound very large even at that.

CUTTING LAWN

Care should be exercised in cutting lawns during hot weather. "It is most unwise to cut the grass too close at this time as burning is sure to take place," warns Professor A. H. Tomlinson, of the Ontario Agriculture College. There should be at least one-half inch of grass, if not more, he says, after cutting. To give the effect of a rich Turkish carpet when trod upon, an inch of growth is necessary. In the early part of the season when there is plenty of rain and the grass is making its most rapid growth and again in the cool weather during the Fall, a weekly cutting may be necessary, but when the hot weather starts a light trimming is all that is required. Do not wait until the grass has grown three or four inches high, however as the cut material is then liable to smother the growing grass, but trim regularly and leave the trimmings on the lawn, which act as a mulch conserving moisture and protecting the roots from the burning sun.

MANY TO ATTEND INSTITUTES OF CO-OPERATION

Judging from the number of inquiries already received by the committees in charge of arrangements, a large attendance of farmers and others interested in crop marketing problems is promised for the Alberta Institutes of Co-operation to be held at Lethbridge, Olds and Vermilion during the week of June 24th. Arrangements for the programs at the three points have been practically completed and the caliber of the speakers secured leaves no doubt as to the success of the meetings. Arrangements at each of the three points are in charge of an enthusiastic local committee and those who plan to attend either the adult or junior sections of the Institutes should communicate at an early date with the registrar of the Institute they will attend.

B. B. UNITED CANADIAN SHOWS TO VISIT RAYMOND

The above Company by arrangement will visit Raymond on June 25 and 26. This is the Carnival that have met with such great success during their British Columbia tour. It is a good clean show, and the management are to be congratulated not only on the type of amusement, but also on the courtesy of the personnel. There are many new and novel attractions, and the folks can go feeling sure that there will be nothing in any way to cause dissatisfaction. Particular mention should be made of the "Exhibit" Captain Coopers Cannibal "Head Hunter" of the "Nagas" First time on exhibition. See the skulls and trophies direct from Africa. Full list of attractions on other page.

Open Air Dance and Supper Very Successful

That the Second Ward Open Air Dance and Supper was not one of the biggest events in Raymond's history, was due only to the cold wind which prevailed Tuesday and Wednesday, and not because of any lack of preparation, organization and enthusiasm.

The takes which were arranged in the double room of the present chapel were filled almost continuously from 8 p.m. until 11 p.m. and estimates of the numbers served range from 300 to 500, the latter probably being the more nearly correct. And boy! what eats. Not a banquet, but one of those good old suppers like mother used to cook and which everybody could heartily enjoy. Kettle after kettle of mashed potatoes, corn, and baked beans were dished out to the guests. The chicken lasted quick, then roasts of beef and pork, were served and these gave out, and a large number were served on ham and meat loaf which was procured to satisfy the constant demand for meals. Home made ice cream, with plenty of cream, and a large variety of cake, furnished the climax to a very soul-satisfying supper.

The floor of the new church was beautifully lighted with strings of colored lights and from the street presented a very inviting and picturesque sight. The orchestra seats had been arranged on the rotunda, be-

tween the recreation hall and assembly room floors and the Hoot Owls and the Canadian Kids were on the job to dispense the enlivening strains of One Steps Fox Tots and Waltzes.

The dancers braved the cooling breezes for some time. The sound of the music was completely lost on the west end of the floor, but round and round the dancers went until about 11:30 p.m. when the wind seemed to have chilled their spirits too much and they sought the shelter of the Recreation Hall of the Chapel where the dance was carried on, although too crowded for much enjoyment.

Too much cannot be said in praise of the untiring labors of Bishop J. H. Walker and his very able and willing assistants. There was no hitch of any kind, everything going smoothly, and the crowd, considering the weather was all and more than the most optimistic had hoped for.

Financially it was successful but far from showing the returns it would have done had the weather been warm. Socially, it could not have been better, only in point of numbers, as everyone fell perfectly at home and thoroughly enjoyed themselves.

People were there from nearly every town and hamlet in Southern Alberta and the crowd, had the weather been at all warm would no doubt have been the biggest ever assembled in Raymond for an event of this kind.

Plans Maturing for Co-op. Institute at Lethbridge

REGISTRATIONS POURING IN DAILY FOR FARM CONVENTION BEGINNING JUNE 24—PREMIER BROWNLEE WILL SPEAK AT BANQUET

It is the conviction of those who are on the inside of things that the sessions of the Alberta Institute of Co-operation to be held in Lethbridge for the four daysecommencing with Monday, June 24, will be an unqualified success. Certainly no effort is being spared either by the central committee acting through D. M. Malin, director of co-operative activities for the Alberta government, and H. E. H. G. Scholefield, vice-president of the United Farmers of Alberta, or by the many committees set up from the U. F. A. organizations, Board of Trade and other organizations of the city and district to insure that such is the case.

Registrations

Registrations are now coming in daily to the office of the registrar, M. L. Freng, at the Lethbridge office of the Alberta Department of Agriculture. From some of the enquiries received it would appear that the purpose and plan of the institute is not yet fully understood by all. It is generally known, however, that the institute is not a society which people are asked to join; but is rather a short course of intensive study of co-operative aims and achievement in connection with the many phases of the farming problem. It has been made possible through the distribution to the province of Alberta thru the Provincial Government of its share of the surplus funds of the Dominion Wheat Board.

Last year only one institute was held, and that at Edmonton. It was a notable success. This year plans have been laid to bring similar advantages home to more people by holding three institutes simultaneously at Lethbridge Olds and Vermilion. To Lethbridge has been assigned the territory south of Calgary. The experts in the fields of co-operative activity from various parts of the United States and Western Canada will commence an itinerary of the three institutes at Lethbridge on Monday, and be routed through to the other two on the succeeding days of the week.

Billeting

Billeting, entertainment and other committees are preparing to make all those who register for the institute comfortable, and to give them a good time. A special committee will be in charge of juniors between the ages of

17 and 21. The board room for the four days and cost of transportation of a limited number of these young people will be paid out of the funds of the institute; and it is the desire of the committee and the registrar that those who wish to attend get in touch with Arthur Newman of the Dominion Experimental Farm, Lethbridge in the case of boys; or with Mrs. F. W. King, Lethbridge, in the case of girls, or with Mr. Freng, the registrar.

For the senior members of the institute, together with speakers and artists, a banquet is being arranged for at the Marquis hotel on the evening of Wednesday, at which Premier Brownlee and Mrs. A. H. Warr, the newly elected president of the U.F.W.A., will speak. As the accommodation is limited tickets for the banquet, which is free, will be issued till exhausted to those first registered. Registration also entitles the member to a copy of the printed report of the institutes, which will synopsize the speeches and discussions.

Other social features will be a picnic at the Experimental Farm on Wednesday afternoon, a dance at the Marquis following the banquet, and a big dance at the U.F.A. rally in the Henderson Park pavilion on Thursday, the last day.

More details concerning the institute will be broadcast over CJO C from Lethbridge.

MEMBERS OF FILM COMPANY TURN PEARL DIVERS

Pearl diving turned out to be a bigger source of revenue than motion pictures for the executive staff of Metro-Goldwyn-Mayer's "White Shadows in the South Seas" company during their stay in the islands. The picture is playing at the Capitol Theatre next week.

The situation occurred when the company moved to the island of Moku, a famous local for pearls.

Camrman Clyde De Vinna and Monte Blue, who plays the lead, succeeded in inventing an amateur diving helmet which, to the surprise of everybody worked.

They found several fair sized pearls and then the panic was on. Interest soon reached such heights that a general order had to be issued reminding the actors and staff that after all they were 5,000 miles from home to make motion pictures and not to compete with the native divers. See and Hear This Wonder Show.

JOLSON SCORES AT CAPITOL Al Jolson is making a big hit at the Capitol this week where he is playing in "The Jazz Singer"—Don't fail to see and hear him.

AL JOLSON GOES OVER, BIG

Folks! you simply must not miss the "Jazz Singer" you will find a story in this picture that will grip you from start to finish. If you have fought and conquered in the battles of life, you will appreciate the more the struggles that "Jackie" undergoes in following his bent as a jazz singer. You will laugh at him, sympathize with him, and possibly weep for him as he finds himself forced to choose between Mother Love and his love of the stage, his heart's desire, and then the climax, as he sings from his heart to tell the audience of Mothers smiles. It is really too good to miss and you will wait for years for a more soul-stirring story. The recording is wonderful.

Welling News

(From our own correspondent)

The grain and beets in this district are looking fine. Most of the beets are being cultivated the second time.

Many people from Welling attended the circus in Lethbridge on June 12.

Czar Christensen, son of Mr. and Mrs. Chris. Christensen of Utah, but formerly of Welling, arrived here Thurs. evening to spend the summer.

Misses Ethel and Lyda Peterson spent two days of last week in Magrath.

A new church now seems to be sure. A committee meeting was held last week and since then members of this committee have been canvassing the ward.

The dance held here last Friday night was a real success. It was well attended and everyone had a good time. The proceeds of the dance, which amounted to \$38.00 will be sent to Alvin Bullock who for over a year has been laboring in the Northern States Mission. Those from Raymond who attended the dance were: Mr. and Mrs. Welby Bullock, Misses Fern Wilde and Edna Wall and Lawrence Bacon and Leonard Mehew. The music was furnished by Misses Clarice McMullin and Sybil Bacon.

Edward Gunning motored to Cardston Saturday afternoon.

The young people from here who were to the surpris party held on Carl Wildo Saturday night were Misses Augusta Schneidt, Bertha Ergard, Viola Schumers, LeOra Peterson and Mrs. Jenny Schumers, Messrs. Claud Peterson Ray Bullock, Ernest Schneidt, Czar Christensen, Kenneth Wilde, George Schneidt, Leon Peterson and Dean Wilde.

Eight ears of young people spent Sunday afternoon at Henderson Lake. Ernest and George Schneidt had the thrilling experience of going for a ride in the aeroplanes C.F.A.D.J. Sunday evening. Ernest was in the air about seven minutes and George five.

The Sunday School appreciated the visit made them by members of the Stake Board. They were Miss Vera Miller, Glen Miller, J. C. Spencer and Mr. Taylor.

Miss Fern Wilde was the guest of Miss LeOra Peterson Saturday night and Sunday.

The heavy rain that fell Monday while much appreciated was not really needed. Some of the farmers will have to get extra help to finish their summerfallowing on time.

Leslie A. Chipman has purchased a Ford Truck.

School let out Tuesday for all the students except grade eight and nine. Grade nine start writing exams. Wed. Those writing are Darrel Cox, Glen Bullock, LeRoy Peterson, Beth Heninger, Elnora Peterson and Willard Heninger.

Mrs. Jenny Schumers is spending a few days with her parents Mr. and Mrs. Shields on their farm near Raymond.

A program was given Sunday afternoon in honor of our fathers. Those who took part were, Charles Walton, Eldon Peterson, Maxine Bullock, Elmer Wilde and Melba Heninger. The remainder of the time was taken up by the high council Bro's Wm. Redd and Arthur Dahl.

"What's the matter, kid?" "We got a new baby at our house and I get blamed for everything."

What's the matter with that hen over there?

Shell shock, ducks came out of the eggs she was sitting on.

WHY IS IT?

We go through life learning here a little and there a little and we get a real eye opener the other day in this manner.

In talking with one of the Town officials, we mentioned the fact that we had heard casual suggestions to the effect that it would be a good thing for the Town to buy a gravel truck and do some gravelling when the civic employees were not otherwise engaged, thereby making more permanent the good grades that are being built in some portions of our faircity. We thought and reasoned that part of the present horse power could be disposed with and that over a period of four or five years that a good gravel truck would pay for itself And then we got our surprise.

We were told that the question had already been considered, but was not carried through, largely because it was felt that everyone would want to be borrowing it and it would soon be demolished, and possibly be in use somewhere else when the town wanted it. And then we heard of this implement and that article of various sizes and uses that had been purchased for town labor, borrowed by individuals for private use, lost sight of by town officials, and then the purchase duplicated.

Well, the Town had finally been pushed to the limit, and when the clamps were stringently put on the borrowing, and sometimes taking even without the courtesy of asking; rate-payers became very discourteous and wrathful, and told the officials that it was partly their money that bought these things and they were sure they had a right to use them when and how they pleased.

How such a condition of mind can be built up and conscientiously maintained is beyond us. Why have a Mayor and Council? why hire men to supervise the different departments of town work and business, if we are going to take it upon ourselves to get what we want when we want it out of the purchases of the town's implements, etc., for our own convenience. As well go to Edmonton or to Ottawa and demand concession from the Department of Public Works, because you are a Canadian citizen.

That you have a share in these things no one will deny, and certainly every ratepayer should have an interest in Municipal affairs. But we should not try to make our personal interests paramount to the interests of the town with regards to their use; and when we do find it convenient to borrow a pump, ferno, or any such article, have the courtesy to ask the proper officials for it, tell him when you will return it, and see that it is returned at that time.

If we follow this plan the Council may see their way to some needful purchases, if they can feel that we will not all want to say when and how it shall be used.

B-r-r-r, these winds have surely been cold the past few days.

King Motors delivered a new Ford Light Delivery to the Canadian Utilities on Thursday.

REGULATIONS FOR VISITING MOTORISTS

After July 1, 1929, any automobile being driven in Alberta with foreign license plates must carry on its windshield a sticker showing that the car bears a non-resident permit to be operated in this province. These permits which may be secured from provincial police officers, parks officials and others who come in contact with the travelling public, will provide a definite record of the number of cars visiting the province each year and the point of origin. The permit when issued is good for three months from date of issue and must be applied for within seven days of entrance into the province.

News Notes

C. H. Elder shipped a car of Horses to the Hart-Parr, (Alberta) Limited at Calgary on Friday.

R. P. Dahl went to Lethbridge on Monday on a summons to act on the jury, but was excused and came home Monday afternoon.

Someone put a ticket on C. W. Card's car here Wednesday to appear in Police Court at 10 a.m. on Thursday. "Bill" thought for a few minutes that he was in for it, until the joke was discovered.

DIET THE MENACE OF HOLLYWOOD

Stars Wrecked Seeking Slimness

Photoplay Magazine recently revealed that many motion-picture stars ruin their health seeking slimness. The motion-picture camera adds from 5 to 20 pounds to the appearance of a stars figure, so that many of these celebrities become victims of dieting.

One famous star died of tuberculosis is brought on by weight reduction. Another ruined her career and was made an invalid by starvation. Still another resorted to quick reducing medicines and is today virtually an invalid. Another star is mentioned who collapsed on a set after trying to lose 10 pounds.

One of the alarming dieting extremes indulged in by the stars, according to Photoplay, is eating no food at all for breakfast, and seriously limiting nourishing foods for both luncheon and dinner.

No person can be healthy without eating enough nourishing food daily and regularly. The tragic experience of motion-picture stars should be a warning to all women and girls to eat enough.

Modern health authorities insist on a variety of foods, including milk, vegetables, fruits and meats. It is dieting error to suggest eliminating sugar from the diet, for sweetness is the perfect flavor that makes all of the healthful foods so delicious. Serve applesauce, grapefruit, dried and canned fruits and cereals for breakfast sweetened for enjoyment. Learn the value of sweetening in the cooking of all vegetables for delicious flavors. Sweetening improves the taste and flavor of fruits and cereals. Sugar and flavoring make delicious milk-shakes and egg-nogs.

See that every member of your family eats enough.

SERIOUS FOREST FIRES IN NORTH

Report from the McMurray district in northern Alberta indicate that forest fires have swept a considerable area and that the rangers of the Dominion Forestry Service are with difficulty keeping the flames in check. Little rain has fallen in the area between McMurray and Peace River and a number of small fires have rapidly assumed serious proportions.

BANK OF MONTREAL CROP REPORT

Alberta. Western Area: With few exceptions moisture conditions are satisfactory and growth rapid. North-eastern Area: Whilst crops are not suffering, more rain is required. Southeastern Area: The whole area has had sufficient rain and conditions are favourable. Saskatchewan. Northern Area: Seeding has been completed and crop conditions are satisfactory. Wheat shows sturdy, even growth and with the prevailing warmer weather is now making headway. Southern Area: Cold weather earlier in the season retarded germination, but the growth of crops is now more rapid with prevailing conditions favourable and prospects satisfactory. A small percentage of coarse grains has still to be sown. Manitoba. Seeding is almost completed and all grains are making satisfactory headway. Wheat is well rooted and on an average is up six inches. The weather is now warmer and moisture conditions are satisfactory at present.

Local crop conditions could be better. Following the heavy rain Monday morning the dry wind on Tuesday dried things out fine but a cold wind was blowing Wednesday, retarding growth, which is already late due to backward weather. Farmers are well up with all work except summer-fallowing and a few beet fields which have been too wet to cultivate. Conditions are still promising, and final results will depend upon the growing weather of the next few weeks.

News Notes

J. H. Ford sold a used "50" Chrysler Coach to Joe Hancock on Saturday last.

The champion steer at the Saskatchewan Calf Feeding Competition was sold to the T. Eaton Co. at 85c per lb. Miles James of Vanscoy, Sask. was the owner.

The body of Tony Nicholas, who was drowned at Lundreock Falls about 3 weeks ago when a car plunged over a 75 foot bank, was recovered about 3 p.m. Saturday about 3 miles from the scene of the accident.

Gen. Bramwell Booth, deposed head of the Salvation Army, died at his home in Hadley Wood on Sunday June 16, at the age of 73 years. He was conscious and talking to his family until a few minutes before the end came.

INSTITUTE OF CO-OPERATION SPEAKERS WILL FLY FROM VERMILION TO LETHBRIDGE

That the speakers for the last day of the Institute of Co-operation to be held in Lethbridge June 24th to 26th, will be brought by aeroplane, was an interesting item given out on Thursday afternoon by D. M. Malin of Edmonton to the committee of the Institute at a meeting in Lethbridge.

The lecturers, coming from the United States, will arrive in Lethbridge for the opening of the institute being held at Oids, commencing on Tuesday and from there to the Institute at Vermilion on Wednesday. To complete the circuit of arrangements a plane with four passengers will fly from Vermilion to Lethbridge to be on hand here for the final day.

Another item of interest was the decision to hold the banquet, which will be free and restricted to those registering for the institute, on Wednesday evening instead of Tuesday. The banquet is to be held in the Marquis hotel and is to be followed by a dance. Premier Brownlee and Mrs. A. H. Warr, president of the U. F. W., A. will be the speaker at the banquet.

More Boys Planning to Make Buchanan's Alaska Tour

BUCHANAN'S BOYS AT LAKE ATLIN, B.C.

Geo. E. Buchanan

George E. Buchanan, sponsor and leader of and roster for the movement of boys to Alaska, is planning to take 50 or more to the far north the coming summer. Buchanan, who is president of the Detroit Coal Exchange and five coal companies and a bachelor, believes that a trip to Alaska, provided a boy partly earns his way, will be a wonderful formative incident in his life. He has already taken 300 boys to Alaska and this will be his seventh annual personal tour. The boys, ages 9 to 17, must earn one-third of the cost of the trip (\$125.00); the parents advance a third and Buchanan loans the boy one third, which is to be repaid later at the boy's leisure.

Buchanan, who gets letters from all over the United States and Canada addressed "Alaska, Buchanan, Detroit," tells the boy who writes to him direct from anywhere how he can earn his third by selling pencils, kitchen tongs, coal, steel ash baskets, etc. Boys who qualify go westward through Grand Coulee, seeing Banff and Lake Louise, then north to Alaska on the "Princess Louise." They see the wonders of Alaska and return by the "Princess" to Vancouver and homeward through the United States, thus viewing the finest scenery in Canada, Alaska and the States. Buchanan goes with them on every trip and gives them his personal care.

When asked what he did if they got sick, he declared that they did not get sick, or if they had a bit of indisposition, the wonderful climate pepped them up and put them back on their feet immediately. "One boy gained 19 lbs. during the month's tour," said Buchanan, and every boy has gone home a better boy physically, mentally and as a young business man. He has seen Alaska's wonders and has earned part of the money to finance the trip, which covers about 8,000 miles and lasts a whole month. One of my youngest boys, who is 5 years old, has already earned about \$80, and if he gets his third together on his own efforts, he will be in our party this summer, even if he is only six years old. Any boy, anywhere can go, provided he gets his parents' consent and earns his third."

Wheat Pool Notes

The Alberta Wheat Pool has fixed July 15th as the closing date for the 1928-29 Pool. There are quite a number of Pool farmers who have still a little wheat on hand and they are advised this must be delivered by July 15th, otherwise it will go in with next year's pool.

The Supreme Court of Canada has decided in favor of the Alberta Wheat Pool contention in the H. W. Keay suit. The Supreme Court judgment sustained the judgment of the Supreme Court of Alberta which was that the matter in dispute was one for arbitration and not for legal action.

According to reports from Ottawa the Federal Government is bringing into effect legislation which will greatly reduce mixing of wheat in terminal elevators. The Wheat Pools have strongly urged that the government should take steps to limit the mixing evil.

The Canadian Journal of Commerce in a recent issue states: "Despite the large crop of last autumn Wheat Pool members have excellent reasons to be thankful that their crop was not subject to the vagaries of the members of the Chicago and Winnipeg Grain Exchange whose primary object is quite naturally, and under former conditions quite properly, to buy and sell at a profit to themselves."

The Alberta Wheat Pool has discontinued broadcasting for the summer months, as has been its custom in the past. The Pool will resume radio work this coming fall.

O. H. Snow bought a "65" Chrysler Sedan from J. H. Ford last week.

The program for the W. I. regular meeting held June 13th in the United Church consisted of the report of the Provincial Convention. Mrs. Wm. Clemis Mrs. A. W. Kirkham and Mrs. R. Webster as delegates gave the report.

Here and There

(320) More than 1200 employees will comprise the personnel of the Royal York Hotel when the Empire's greatest hospitality throws open its doors to the public in June. The chef has between 125 and 175 skilled culinary experts under his control and the head-waiter commands a group of over 300 workers. There is a corps of 28 picked telephone operators and there is a printing establishment with three presses and a linotype machine.

With a score of 1402 out of a possible 1500, highest ever made since the contest was inaugurated, Canadian Pacific Railway police, Ontario No. 1 team have been awarded the Dominion Revolver championship for the Chief Constables Association Trophy. Thirty-six teams competed for the title. The winning team was made up of Investigator E. O'Brien, Sudbury; Constables H. H. Gyles, Port McNicoll; J. H. B. MacDonald, Toronto; D. Prendergast, Sudbury; and W. E. Tinsman, White River, Ont.

Addressing the Quebec branch, Canadian Manufacturers Association annual meeting in Montreal recently, Henri Rolland, retiring chairman, said Canada had the second largest per capita installation of water power in the world with its 513,000 h.p. per thousand of the population, being second only to Norway. Today \$900,000,000 or \$100 for every person is invested in hydro-power plants and there will shortly be another \$200,000,000 added by numerous undertakings now in their initial stage.

Fine progress is being made in seeding in the Prairie Provinces, according to reports to the agricultural department of the Canadian Pacific Railway at Winnipeg. Lost time due to backward weather is now made up, it is claimed, the soil being in excellent condition. Pastures are somewhat backward but stock are in good shape.

Under its policy of development and expansion the Canadian Pacific Railway has already this season let contracts for 286 miles of branch line construction in western Canada, according to D. C. Cleiman, vice-president of western lines. It is expected that when contracts for the Lankan-Prince Albert branch are let that construction programme for 1929 will call for slightly more than 400 miles.

Hon. Narcisse Perreault, former Lieutenant-Governor of the Province of Quebec, returned from a six months trip to India and the East recently. His Honor was taken ill with bronchial pneumonia when in Benares and for a time his condition was very serious. When he alighted from the Trans-Canada Limited at Montreal from Vancouver he was however looking well and stated that but for his illness had thoroughly enjoyed his holiday. It was his first visit to India and he was much impressed by the scenes witnessed there.

The Millionth Frigidaire

High explosive bombs crashed for an hour above the city of Dayton Ohio the other day as the one millionth refrigeration unit to be built by Frigidaire Corporation came through one of its many conveyor lines and emerged as a finished electric refrigerator, all ready to freeze ice cubes.

Beneath the bomb smoke, flags fluttered from roofs of the factories and office building. But there was no sounding of whistles to signal even a short shut-down. With the plants far behind orders thousands of employees continued their work, while the steady reverberation of bombs marked the building of the millionth unit.

For many weeks three shifts of workmen had been ending the fifteen great porcelain enamelling furnaces, held unvaryingly at 1600 degrees Fahrenheit. For weeks and weeks other departments had held to the same operating schedule. In one day 134 carloads of finished products were shipped from the factories. And on the day the millionth unit was completed the factories were still farther behind orders than they were two months earlier.

The millionth Frigidaire, bearing a gold serial plate, was shipped by airplanes to Atlantic City to be a featured exhibit at the annual convention of the National Electric Light Association.

Refrigeration equivalent to 120,000 tons of melting ice daily is the capacity of the one million units already built, according to E. G. Biechler, president and general manager of the corporation. This ice tonnage would be sufficient to supply 9,600,000 families with 25 pounds of ice daily.

"There is a vast difference between the units of 1917 or even as late as 1921 and our present models," said Mr. Biechler. "Back in 1922 there were but two Frigidaire models, one a household cabinet with nine cubic feet of storage capacity and the other with fifteen cubic feet for food storage. The factory price of the lowest priced model, was then \$850.00 the lowest priced model now sells for only one fifth that price at the factory."

"Production of each quarter of a million marks a very definite period in development of Frigidaire equipment. The first ten years was a period of small production and basic development. The second quarter of a million marked the period when the business was placed upon a mass production basis, and all fundamental problems solved. The third quarter of a million followed the introduction of the new Frigidaire, with its quiet mechanism. The fourth quarter of a million will always be associated in history with the introduction of the Frigidaire Cold Control, the greatest single contribution to household refrigeration since the building of the first ice box."
